

## Key features & **benefits**

### **Online document tracker**

View the status of all your documents to see if they were successfully sent and received.

### **In-network translation**

Send documents in one format, enable receipt in another. Formats could include: EDI, EDIFACT, Flat Files, XML, binary, and graphic files.

### **Flexible document viewing**

View your documents in both the format you sent them, and in the format they were received.

### **Communicate with non-EDI companies**

Send and receive documents seamlessly to and from companies that aren't EDI capable with web forms and Flat Files.

### **Unrivaled security**

The IDX has multiple layers of security including: firewalls, encryption, certificates, authentication, and validation, with a fully redundant network and disaster recovery.

### **Document reprocessing**

Regenerate EDI documents with point and click ease, and never spend time or resources recreating EDI documents again.

**EXCHANGE**

## Automate business processes from quote to cash with flexible EDI solutions

### The Industry Data Exchange - IDX

Automate the quote-to-cash cycle using electronic data interchange (EDI) – your customers get their order on time, and you get paid faster.

The Industry Data Exchange (IDX) enables you to exchange eBusiness documents with your trading partners faster, easier, and more securely than traditional Value-Added Networks (VANs) or paper-based methods. Purchase orders, invoices, advance ship notices, and hundreds of other business communications can all be sent securely and cost-effectively over the Internet, even with companies that aren't EDI capable.

 **\$32** per order can be saved by going electronic with the IDX.

**3 Million**   
EDI documents exchanged over the IDX Network each month.

### Flexible, precise data exchange.

IDX offers one of the most flexible solutions for document exchange so you can quickly expand your electronic capabilities and increase your speed-to-market. You choose the ISP, interface and security software, document formats, and routing technology (AS-1, AS-2, AS-3), and we'll accommodate you.

## IDX Tools & Services

IDEA offers value-add tools and services that can help you increase efficiency and your return on investment for the IDX.

### Conexiom (powered by ecmarket)

Automate order management with trading partners that are not EDI-capable by utilizing the IDX text-to-EDI conversion tool. This tool can help you quickly increase the percentage of orders that are processed electronically, which in turn, will increase the productivity of your customer service reps.

Maximize return from your EDI investment

100% Data capture accuracy
